HOAG-LAND'S NEW PATENT SHAFT COUPLING!

W. E. COOPER HAS PURCHASED THE RIGHT FOR THIS County of the above Patent, and will hereafter use it in the construction of all the Vehicles manufactured at his extensive

Carriage Factory, Corner of Second and Morrison Streets.

He respectfully refers to the following

CARD.

Having examined the New Patent Shaft Coupling, invented by H. R. Hoagland, we feel pleasure in informing the public that in our opinion it is the easiest and best method of connecting shafts or tongues to all vehicles that has ever been used.

It fastens without bolt or screw, and is therefore, easily and speedily separated. It rests on Gutta Percha so as to be entirely free from the rattling sound which so often disturbs restless horses. It is easily changed so that the shafts or tongue may be detached in an instant, and is convenient, safe and secure.

It is easy to change to this style of coupling any buggy or other vehicle now in use, and with small expense. We have come to the conclusion to use this new invention ourselves and recommend its use in all cases. We consider it far superior to the Brewster Patent, heretofore considered the best in use.

BOOTS AND SHOES, for sale by j6 H. W CORBETT & CO.

By Overland Telegraph.

[DISPATCHES TO THE OREGONIAN.]

DATES TO SEPTEMBER 16.

Nebraska Election.

St. Louis, Sept. 16.—An Omaha dispatch says the election was peaceable though excited. The returns indicate the election of three Republicans and one Democrat to the Legislature. A Republican sheriff, clerk, assessor and commissioner. The Democrats elect the Probate Judge and Treasurer, who run on a people's ticket.

Indian Depredations in New Mexico.

Reports from Santa Fe note continued Indian depredations. Women and children are being murdered and much stock is being driven away. The troops had returned from the White Mountains, having killed and captured twenty-two Indians and destroyed several camps and a large amount of property.

Texas Affairs.

WASHINGTON, Sept. 16.—General Sherman has ordered that the election in Texas, which was originally fixed for the 13th of November, be extended through four days on the suggestion of General Reynolds that a fair election could not be held in one day. The same extension will be given in Mississippi if required.

Maine Election.

AUGUSTA, Sept. 16.—Returns from 283 cities and towns show a total vote of 70,981. Chamberlain received 38,988, Smith 28,259, and Hichborn 3,754; Chamberlain's majority over both, 6,955. The Republicans carried every county on the local ticket except Aroostook and Knox.

Miscellaneous.

ROCHESTER, Sept. 16.—Sandford E. Church is no better.

PHILADELPHIA, Sept. 16.—The delegates of the Pomological Society were to-day welcomed to the city by the Mayor. The society meets next year at Richmond.

BY ATLANTIC CABLE.

DUBLIN, Sept. 15.—The General Synod of the Irish Church assembled yesterday at St. Patrick's Cathedral in full attendance. A protest against the act of disestablishment was passed unanimously, and a scheme for the formation of a church body, consisting of 124 representatives, was submitted.

BASLE, Switzerland, Sept. 15.—The International Working Men's Congress, convened yesterday, a large number of delegates present. Congratulatory letters and dispatches from all parts of Europe and America were received. A letter from the German workmen of New York city regretting their inability to send a delegate, and a communication from the National Union of the United States was received. Cameron, an American delegate, made a long speech. He invited the delegates to attend the National Labor Congress at Cincinnati in 1870.

PARIS, Sept. 15.—Paraguayan advices to August 9th, via Janeiro, says a Provisional Government has been established at Ascuncion. It consists of three men. The allies had commenced active operations. Count de Eah had carried two of the Paraguayan's fortifications and occupied Venzuela. General Osorno menaced Peneburg. Gen. Barrale had commenced a flank movement on Vienna. The Brazilian fleet attacked Peneburg and La Poya and took many prisoners. Reinforcements from Matto Grosso and the Argentine States had arrived. News of a general attack on the last stronghold of Lopez was expected.

PARIS, Sept. 16.—The *Gaulois* to-day states that the majority of the Prince Imperial will be announced on his next birthday.

The bullion in the Bank of France has decreased 4,000,000 francs since last Thursday.

General Prim will have a second audience with the Emperor to-day or to-morrow.

MADRID, Sept. 15.—The *Imperial* says Prim has telegraphed to the Government declaring he will hesitate at no sacrifice to subdue the insurrection in Cuba.

General Prim has telegraphed the Government from Paris to use all diligence in sending troops to Cuba.

LONDON, Sept. 16.—Stormy weather continues. Much rain has fallen and the gales continue to prevail.

The *Times* has an editorial on Sickles' note to the Spanish Government. It insinuates that popular pleasure has forced President Grant to sanction the demand on Spain for the abandonment of Cuba. The probability is that we are on the eve of a great event, and the struggle will be hopeless for Spain. But the Government cannot resist the impulse of the people. The flame of Spanish pride is fast kindling. From the most tranquil provinces of Spain come offers of men and arms, in order that the regular troops may go to Cuba. The aggressive policy of the United States cannot be justified by the attitude of Spain toward Cuba. It is not a question of slavery, for the abolition of slavery has been decided on. It is not the determination of Spain to resist the demand of Cuba, for negotiations have been opened to allow the severance of the Union. It is doubtful if a war of races might not ensue if the insurrection is not extinguished before the session of the island.) Under the present critical circumstances the Cortes on assembling must turn its whole thoughts and attention to the difficulties and dangers of Cuba.

NEW YORK, Sept. 16.—A *Herald* special dated Madrid, evening, says: Two Spanish iron-clad frigates have been ordered to proceed to Cuba with troops. Three thousand men sailed for the island and seven hundred men leave for the same place the present week.

A *Herald* special dated from London says: It is known here to-day that Sickles sent the Spanish Cabinet an official note protesting in behalf of the American people and the Government of the United States against the outrages committed on American citizens in Cuba, and, asserting at the same time, that belligerent rights would soon be accorded to the Cubans by the government at Washington, should Spain persist in her barbarity on the island and in the refusal of terms of compromise with the people.

Members in opposition to Serrano have assailed Sickles' dispatches with the object of embarrassing the Regency as well as to prevent, if possible, any encouragement that it will receive.

In his last chapter of Political Economy (the fourteenth,) Horace Greeley gives a complete history of the production of beet-sugar in France, which has now reached the annual figure of 600,000,000 pounds, selling in Paris for six or seven cents a pound, or quite as cheap as cane-sugar can be imported. Mr. Greeley regards the experience of France in beet-sugar as a good illustration of the advantages of protection, and, no doubt, it is. But he also shows that it is no longer protected, so that it may furnish no argument against free trade. In fact, it is useless to talk of free-trade or of protection as a fixed policy of any nation, since every nation applies one policy or the other to each particular article of commerce, as it believes most expedient.—England, which is the stoutest champion for free trade, is beginning to have a revival of the old doctrines of protection, this time among the poor, not the rich, as before. Our American labor conventions generally favor protection. Judge Kelley, who does the same, and who has just come back from the Pacific coast, gives a queer reason why the coal duties should not be taken off. He says that, if they are the people of Nova Scotia and British Columbia will no longer desire to be annexed to the United States. Still he thinks those duties will be taken off, and so do we.—*Springfield Republican.*

THE STOWE-BYRON QUESTION.—DR. LESHINGTON AFFIRMS THE POET'S GUILT.—The Boston *Advertiser* gives prominence to the following communication:

"Mrs. Stowe may have fallen into error as to dates. I trust she has, and that, as the nation asserts, Lady Byron will be acquitted of and knowledge of her husband's real character until the moment of separation. Seventeen years ago I heard this fearful story of incest from an Englishman of the very highest character, mental and moral. He repeated to me the facts communicated to him by Dr. Lushington, and within this year his narrative has been confirmed by an English woman, who received her information from Trelawney, Byron's comrade. The discussion now going on will probably bring forth the proofs from those to whom they have been entrusted. One of them will be Byron's own confession. H. L."

GENERAL NEWS ITEMS.

It is proposed by the Ohio Republicans to use General Rosecrans' letter as a campaign document.

By a split in the Republican party in Saccarappa to county, and the determination to run Judge McKune, the Democrats will probably elect their candidate for Judge.

The official returns of the recent Congressional election in Alabama show the following result: Total Republican vote, 66,094; Democratic vote, 47,434; Republican majority, 18,670.

There were 473 more commitments for drunkenness in Boston in July and August of the present year than there were in the same months last year. And still the city is agitated by the question—Is there an open bar in Boston?

The Atlanta (Ga.) *Constitution*, hitherto a warm ally of the Northern Democracy, now discovers that it is a party whose name is a synonym of disaster, and urges that a new combination of all the elements of Southern Conservatism be made.

The Troy, New York, *Times* is out in a long article complaining of the utter inefficiency of the Democratic National and State Committees, and telling its readers that changes must be made and much hard work be done to secure the Legislature for the Democracy.

While the California gold production at times appears to be on the decline, the Australian at other times appears to be on the increase. At present California is declining while Australia is increasing her gold product. The news from the latter country is very cheering as regards the prospects of the diggings.

Some of the English and Continental European papers make the somewhat curious statement that the opening of the Suez canal will seriously affect the English cotton spinners by the facilities it will afford the manufactories established within the last few years on the Continent of Europe to procure their supplies of raw material from the East Indies.

The Cincinnati *Gazette* is credibly informed that General Rosecrans' letter of resignation was received by the Ohio Democratic State Committee on the 16th inst., and remained in their hands more than a week. It is not to be wondered at that they hesitated to publish it. Indeed, nothing less than compulsion could have induced them to let it be printed at all.

The following statement shows the number of miles of railroad in the States given: Pennsylvania, 4,400; Illinois, 3,450; Ohio, 3,400; New York, 3,400; Indiana, 3,000; Iowa, 1,550; Georgia, 1,580; Massachusetts, 1,450; Missouri, 1,400; Virginia, 1,450; Tennessee, 1,440; Wiscon

The Daily Oregonian

SATURDAY MORNING, SEPT 18, 1869

Condition of California.

Newspapers of all descriptions in California are discussing the business and commercial situation The literary papers, equally with the commercial journals, are devoting their attention to the debilitated condition of trade, anxiously investigating its causes and vainly suggesting remedies. That the present is a crisis which bears severely on business and general industry in San Francisco and throughout California there can be no question, nor is there any indication of immediate improvement Everything is at a stand There is comparatively little building going on, and the press assures us that people are leaving the State quite as fast as they are coming Emigrant trains run both ways The *Golden Era* says the trains coming West bring hopeful experimenters, men and women who have broken all the ties of home in the chance of improving their prospects, while the trains going the other way too often carry the same people, disappointed and disencumbered, content to take up the old burden and bear it. Strangers coming into the State have little chance even to obtain employment. The avenues of industry are not extending, and the places are all full The hands have been bought up by speculators and are held at exorbitant figures. The paper mentioned above goes on to say:

Our high prices are telling against us. The Atlantic States manufacture goods, send them here and sell them to us cheaper than we can manufacture them ourselves. Chicago is reaching to our very borders and selling goods in our own market. It is true we make a good profit on what business we do. If we manage to sell a man anything we make something by the operation We have no cents here, and hold dimes in contempt This is very grand in its way, but isn't there danger that scarcity of dollars will follow the neglect of dimes. It is the trifling expence that makes men rich The slow shilling eats itself up in rents and taxes.

By giving the matter proper attention Oregon could secure large numbers of those who came out to California and return in disappointment to the places whence they came. Here they would be satisfied and would enter upon a career of prosperity. But when, disgusted with California, they are told by people there that Oregon is still worse, there is no wonder they do not come to our State. We really do not know of any place where we could send immigration agents more with profit than to California. Were our State properly represented to those who arrive in California, we should gain large accessions to our population. Would it not be well for our Immigration Society to look in that direction?

A Senseless Discrimination

The Cincinnati *Gazette* publishes an article exhibiting the unjust discrimination which prevails in that city against female teachers; and from a local view of the subject that paper proceeds to give it general consideration. Accepting its figures as a guide, the contrast afforded in the respective salaries paid to male and female teachers in the principal cities of the Union is very noticeable. The average pay of male teachers in Boston is put down at $2,000; that of female, at $650. Chicago pays white teachers an average of $2,000, and female teachers $700. New York gives male teachers an average of $1,500, and female teachers $650. Cincinnati pays male teachers an average of $1,500, and female teachers $750. In Louisville male teachers are paid on average $1500; women $650. What is particularly noticeable in these figures is the difference exhibited between the cities East and West in their estimate of women. Boston is only a "dab" for man, it would seem. Women are not appreciated there quite as highly as in Chicago, Louisville, Cincinnati and St. Louis. Everywhere in the West women teachers receive proportionally higher salaries than in the Middle or Eastern States.

The question will naturally arise, why pay a man two or three thousand dollars for doing precisely what a woman is expected to do and does perform for less than half the money? The practice we know is old, but why should that make it unobjectionable?

In General.

The *Herald* foolishly insists that the Fifteenth Amendment will give the right of suffrage to the Chinese, says every person who declares otherwise sets up a "false pretense," and declares that "Wilson" in a letter to a Portland daily, added another to the false certificates that bear his Senatorial name."

This is kind, courteous and dignified! The editor seems to be forgetting his resolution to forsake blackguardism

Following is a statement of the Democratic vote in several counties of California, as compared with that of last year.

	1869	1868
Yuba	1,066	1,112
Solano	1,248	1,442
Santa Clara	2,125	2,330
San Joaquin	1,625	1,987
Tuolumne	892	1,215
San Francisco	12,287	13,682

A very few counties report small Democratic gains as compared with the vote last year. The total vote of the party, however, is several thousand smaller than in the last election This is a sufficient answer to the stories about Democratic "gains."

The vote thrown for Strikes in the recent election in Tennessee was 54,874,—nearly the full Republican vote of the State Grant's vote last 56,757 The vote for Senter in the late election was 120,204. Over half this vote was thrown by rebels hitherto disfranchised The several years the Democratic vote of the State had not exceeded 30,000. The whole rebel element was enfranchised by Senter in violation of the Constitution and laws of the State. If now they will make use of their power by ejecting him from office, or even by hanging him, they will justly punish a renegade who has betrayed all parties alike

The Marysville (Cal.) *Appeal* has the following observations on the political condition of that State: We claim, as a whipped but unsubjugated California Republican, that we still have more than the best of the Democratic party by five to one The Republican party is only *hors du combat* in five or six States of the Union, while in about thirty States it is difficult to determine whether the Democratic party is dead or alive! Besides, the defeat of the Republicans in California does not necessarily imply a Democratic victory. There has been a mutiny in the Republican army since the betrayal and defeat of John Bidwell, for Governor, in the Republican State Convention of 1867. The Republican factions have been cutting their own throats ever since

While the editor of the *Herald* is writing tremendous articles against the Chinese and cheap labor, and cursing the "infernal Union League" for allowing the "rat-eating heathen" to come into competition with "healthy Norwegians," we notice a troop of these same "rat-eaters, foul lepers and felons from China, filing past our door carrying wood into the *Herald*'s press room to make it on to print those very editorials That paper habitually employs the labor of 'disgusting, heathen,' simply because they will work for less money than white men. The editor wears a shirt washed by a Chinaman eats a dinner cooked by a Chinaman, warms himself with wood sawed by a Chinaman, and then sents himself comfortably in his chair writes a screaming leader against Chinese labor and sends it to be printed on a press driven by fuel supplied by a Chinaman We even think sometimes from the broken ejaculatory style of the *Herald* editorials that the cheap labor of a Chinaman who has just begun his education in English, is occasionally employed in working them up also

GENERAL NEWS ITEMS

A Boston dispatch says Gen Butler has written an article on the Stowe Byron controversy which will shortly make its appearance Butler will take somebody's scalp

The whole number of persons in Charleston, S C as appears by the census just taken is 44 952 There are 4 520 more blacks than whites, and 4 650 more females than males The population of the city in 1860 was 40,522

The Concord (N H) *People* says that a large body of black ants were seen a few days ago in the highway between Loudon and Concord N H formed in two lines, extending across the road to the bank opposite Persons who saw them estimated their number by the million A severe battle was fought, which lasted nearly an hour, after which both sides where occupied in burying their dead

It is said that the demand for Lord Byron's poems has increased enormously since the publication of Mrs Stowe's scandal about his separation from his wife It is suggested that as the proprietors of the *Atlantic* gave this assumed revelation to the world for the purposes of personal profit, they may now issue a new edition of Byron, edited by Mrs Stowe, and accompanied with her notes upon italicized passages which are supposed to bear upon the subject of Byron a crime

On the 3d inst. the following resolution was introduced in the Twentieth Ward Jackson Club, in New York city: "*Resolved*, That this Club secede as a body from the Tammany Democracy, if that organization either publicly or privately, openly or covertly, by act or word, favor the retention of Mr. August Belmont in his present high office" The motion to adopt this resolution provoked quite a lively and protracted discussion, the opponents of it defeating it only by a motion to table until after the holding of the Syracuse Convention.

The New York financial journals are arguing that the European demand and the Treasury have together taken off the United States market, since about the Middle of March, quite $100,000,000 of bonds. These bonds have constituted the floating supply, held temporarily by the financial institutions for the employment of balances, and by individuals holding them on speculation or otherwise than as permanent investments This supply is considered as having been about exhausted, and it would seem that the purchases of the Government would have to be supplied through the temptation of higher prices, appealing to a class of holders much less inclined to sell.

SUPREME COURT DECISIONS

September Term, 1869.

B Sylvester, Respondent, vs E. Hartless, Appellant—Appeal, Benton county

The certificate of the Clerk, affixed to the papers filed in this court, is substantially this "I, B W. Wilson, Clerk, &c., * * do hereby certify that the foregoing is a true copy of the judgment entry in the above entitled suit, &c., and * * that the undertaking on appeal was filed by the appellant, &c., to the effect that if said judgment is affirmed, &c., and that the accompanying papers, to wit., the *pleadings*, depositions, &c., constitute the evidence, as per agreement of parties, and copy of notice of appeal complete the transcript."

The respondent moved to dismiss the appeal for want of a proper transcript, and the appellant filed a cross motion, supported by affidavit, for a rule upon the Clerk to perfect the transcript.

F. A. Chenowsth, Esq., for appellant, Williams, Burnett & Strahan, for respondent

Wilson, J.—We have had occasion at this term to give a construction to the first part of Section 531 of the Code, in which we held that the Clerk might make certificate to the transcript in different ways. The words, "the transcript is a copy, * * filed by the Clerk, of the *roll or final record*, or the *pleadings, orders, exceptions, papers* and *journal entries*," indicate that either of three conditions of the certificate would be a sufficient compliance with the statute. The Clerk might certify that the foregoing is a true copy of the *roll*, or, a true copy of the *final record*, or, a true copy of the *pleadings, orders, exceptions, &c*, and either of such certificates would suffice.

In the case at bar the Clerk has conformed to the law substantially only in certifying to the copy of journal entry,—to the statement of the bond, and copy of notice of appeal, and to the statement of evidence. He made no certified copy of the pleadings, but annexed the original pleadings to the statement as evidence. The Clerk has made a transcript, which to a certain extent complied with the statute. There were proper copies of the journal entry of the notice of appeal, and a proper statement of the bond. This is a case developing a defective transcript, yet sufficient to give this Court jurisdiction over the cause Under section 532, this Court has the power to complete a transcript in certain cases, by a rule upon the Clerk below That section provides, that if there be a final omission of any substantial part of a transcript, the Court may order the Clerk to transmit to the appellate Court a certified copy of the pleading, entry, order, &c, alleged to have been omitted. The failure to file a transcript by the second day of the term precludes us from having jurisdiction, ordinarily, but we think a transcript, defective or incomplete, when filed within time, would authorize us to allow of amendment, and make the appeal effective

The pleadings are a material part of the transcript, and not having been certified by proper copy here, may be supplied The cross motion is therefore allowed without terms, which forbids a dismissal of the appeal

NEW STONE BREAKER.—An Owyhee paper says

The Blake stone breaker, now in use at the Owyhee Co's mill, is the admiration of every one who has witnessed its performance It is simply a cast-iron box of great weight, in which works a jaw of equal strength The upper end of the jaw is hinged on the top of the box and the lower end oscillates about half an inch by means of a power derived from a lever, which is some three inches in thickness, the bottom resting on a fulcrum at the end adjoining the lower end of the jaw with which it is connected. The other end of this lever being raised up and let down by means of a crank shaft between two heavy fly wheels, which gives the jaw the oscillating motion, and as the jaw is set flaring with reference to the cast iron box it leaves an aperture large at the top and small at the bottom, into which pieces of ore as large as a man's head are thrown and crushed to the size of a hen's egg, and has the capacity to crush 200 tons in 24 hours This machine was invented by Eli Blake of New Haven, Connecticut, father of Charles T Blake formerly agent of W F & Co at Idaho City and afterwards proprietor of the Postoffice book store and newspaper agency The stone breaker was originally intended and used to prepare material for Macadamizing roads, but is just the thing needed for preparing ore for the battery Mr Walbridge informs us that it easily does the work of twelve men and that the mill with her twenty stamps will crush four tons more of Chariot ore in twenty-four hours after passing through the stone breaker than if broken by hand with hammers.

CO-OPERATIVE HOUSEKEEPING.—The Springfield *Republican* says that Mrs Pierce is making progress with her plan for co operative housekeeping in Cambridge though not fast as she would wish About thirty persons have subscribed $100 each and a few others have subscribed the smaller sums required for the laundry alone It is doubtful if the rest of the money necessary will be required in season to open the establishment. There is some complaint that the men folks are not quick to concur in the project and on the other hand, it is asserted that Mrs. Pierce is attempting too much at once A similar scheme is on foot at Medford, and reported to be nearer success than the Cambridge plan

By Overland Telegraph.

DISPATCHES TO THE OREGONIAN

DATES TO SEPTEMBER 16.

Washington News

WASHINGTON Sept 16.—It is announced by the Publishing Association, that the Washington *Express* will be issued on Monday in connection with the *National Intelligencer*, as a Democratic morning journal

It is authentically denied that Minister Motley has written a letter to the State Department expressing dissatisfaction with the policy he was instructed to pursue with regard to the *Alabama* claims as reported in certain journals

Commissioner Delano has determined to thoroughly shift the assessments and has therefore appointed a large number of assistants whose special duty shall be to re assess incomes The work will commence in the large cities immediately

SUPREME COURT PROCEEDINGS.—From the *Statesman* September 16th: No decisions were rendered by the tribunal yesterday morning. A motion to perfect the transcript in the case of Wilson, appellant, vs. City of Salem, respondent, was argued and submitted.

In the case of Delay, appellant, vs. Chapman, respondent, a motion to strike certain papers from the files, was argued and submitted.

The attorneys in the case of Heatherly, appellant, vs. Haxby and Owen, respondents, finished reading the evidence in the case, and will argue the same to-day.

The case of Delay, vs. Chapman, was upon a motion to suppress part of the testimony, and it being suggested by Upton Judge, that he felt a little delicacy about sitting in the case, and it agreeable to parties he would descend from the bench, the question came up as to whether in case of three Judges only, hearing a cause and one of them dissenting, the consulting two could render an opinion that should be final.

Boise C. J. remarked that should this case proceed to a hearing before three Judges and two of them only concur in the finding of the Court, a motion for a rehearing would inevitably follow; and, that the question as to what constitutes a quorum of the Supreme Court of Oregon had better be decided, now and put at rest; and that the members of the bar who now felt interested would have an opportunity for expressing their views on the subject.

The points raised in which nearly all the leading attorneys present took part pro and con, touching the construction of the 5th section of Art. 7 of the Constitution, and of the Judiciary Act and its constitutionality; and also the probable effect that ruling in either way might have in a variety of cases presented by the Court and bar, gave rise to a running debate of an hour and a half, Boise, C. J., said, there are two questions involved; First—Can two Judges make a decision of any case that shall be valid? Second—Can a Judge who is excluded by the statute from hearing a case in the Circuit Court, sit in review of that case here. The subject was taken under advisement until next meeting.

SPRINGING INDEPENDENCE.—We take the subjoined items from the *Advocate*:

Rev. G. W. Roork, of Clear Creek Ct., has been quite ill since Conference. We understand that he is now convalescent.

Rev. J. F. DeVore writes: I visited the Lafayette charge last week—held a quarterly meeting at the North Yamhill church—had a good meeting.

The stewards of Portland district will hold their district meeting in this city, according to previous notice, on next Tuesday, 21st.

Rev. J. Hines received a letter from Bro. P. J. Addison, of Carlton, T. T., enclosing $10 in currency for the Oregon Home. This brother has adopted the plan of giving one-seventh of his income to the cause of the Lord.

A new M. E. Church will be dedicated to the service of Almighty God, near Sandy, 14 miles from Portland, on Sabbath, Sept. 26. It is on Rev. W. I. Cooper's work, and the building cost about $1,200.

Rev. G. Anderson writes from Jacksonville, Sept. 10th: "Our meeting just closed; resulted in quite a number of clear conversions—17 accessions to the Church."

We give it to-day in doses. They take it down. The doses are sometimes large. The doses are rather homeopathic. Weather is uncertain. It is as uncertain as a white man. It is uncertain in Oregon. Everything is uncertain. Therefore nothing is certain. Sorry, but can't help it. Certainly is a big thing. But its scarce. Big things are therefore scarce. Return to our subject. We are returning. We have returned. We shall not again turn away from it. Notice us hang on to it. Hanging on is a big thing. It is one of the biggest of big things. We have said big things before. We have said this before. It is true. That is why we say it again. We hang on to that. But the weather. Weather is the theme. It is a fruitful theme. Fruit is one good thing to have. They are good things to have in a family. Some families have them. Some have not. We are sorry for those who don't. Some families are well with feather fellows. Everybody ought to be equal. Equality is justice. We have said this before. But the people wouldn't hear. They will not now. They will listen now. They ought to have listened. This is what we say. The people are a unit. They have not napping. They are about to [illegible]. They are about to get up and "git." They may. They may not. Speaking of May, reminds us of our subject. Subject is weather. It is a tough subject, and we are equal to it. We can do it justice. We shall do it. We do it. At some future time we shall do it. This time is not now. It has not yet come. When it does it will be daylight. We shall go at our subject. For the present we leave it.

SPIRITUAL DEVELOPMENT.—By the last trip of the steamer Ajax, we learn that in this city an eminent divine of the Catholic Church. We allude to Rev. F. X. Wenninger, S. J., who came upon the invitation of Archbishop Blanchet, for the purpose of giving missions throughout the Archdiocese of this State. Father Weninger has been laboring in Canada and Ireland for the last twenty-one years, in which labor, and the so which has [illegible] he is said to border on the miraculous. It is said he has preached as often as sixty-five times in a month, giving instructions to persons of every age and condition. He is also the author of several religious works, many of which are in the hands of the clergy of this country, and the latest work on [illegible] and Infallible Authority of the Pope," one of which are masterly productions. The former has passed through twelve editions in English, besides having been translated into French, German, Polish and Italian, and the latter has passed through three editions of English, besides having been translated into French and German. Both works are highly recommended for their reasoning and originality by the press of both Europe and America.

Father Weninger for this city will commence on to-morrow morning, at 6 A. M., and will continue through eight days, at which time there will be services in the morning at the Immaculate Conception at 5½ A. M., and at 8½ A. M. daily, at all of which, Father Weninger will preach both in German and English. During the progress of the last mentioned special service will be announced.

LOCAL ITEMS.—Following items are condensed from the *Register*:

On the 16th inst. Lewis Van Vleet and Wm. H. Fletcher were engaged in threshing on Fern Prairie, each driving a two-horse machine. Van Vleet ordered one of Fletcher's horses to be taken out of the machine, and then struck Fletcher's horses with his whip. Then drew a pistol, and presented it, saying, "You ——— I'll scatter you if you don't give the horse up." Fletcher, unarmed, got behind his horses. Next day Van Vleet was arrested and held to bail in $200 for his appearance at the Circuit Court, and also to keep the peace in the meantime.

Mr. H. Leonard, whose team was drowned in the Willamette Monday, is "out and injured" about $200.

The United Brethren's campmeeting on Fourth Plain, Vancouver, closed last Sunday, 14 miles from Portland, on Sunday, Sept. 5th. It is on Rev. W. I. Cooper's work, and the building cost about $1,200.

Rev. G. Anderson writes from Jacksonville, Sept. 10th: "Our meeting just closed; resulted in quite a number of clear conversions—17 accessions to the Church."

At the general election of officers for the M. E. Church in this city, on Sunday last, the following persons were elected for the ensuing year: Superintendent, J. F. Caples; Lady Superintendent, Mrs. S. V. Hill; Assistant Superintendent, S. Clarke; Secretary, J. C. Rounds; Treasurer, W. W. Cornell; Librarian, G. E. Watkins; Assistant, H. C. Clemens.

On Saturday last, says the *California C. Advocate* of September 15th, Rev. Bishop Kingsley sailed on the steamship Japan for China. His duties will render it necessary for him to visit the northern portion of the empire, after which he will visit the mission at Foo Chow; and, if it should be deemed advisable, he will organize a Conference. On Monday Mrs. Bishop Kingsley and daughter, and Rev. Dr. E. Thomas, left Sacramento by railroad for the Atlantic States.

LOCAL ITEM, A LA "SUNDAY LEADER."—Physically, it was not day. Itemetically, it was a dry day. Financially it was a bad day. It was a bad day for the storekeeper. It was a bad day for reporters. It was a bad day for ducks. This is what we say. We say it because it is true. The people want to hear the truth. We give it to 'em in doses. They take it down. The doses are sometimes large. The doses are rather homeopathic. Weather is uncertain. It is as uncertain as a white man. It is uncertain in Oregon. Everything is uncertain. Therefore nothing is certain. Sorry, but can't help it. Certainly is a big thing. But its scarce. Big things are therefore scarce. Return to our subject. We are returning. We have returned. We shall not again turn away from it. Notice us hang on to it. Hanging on is a big thing. It is one of the biggest of big things. We have said big things before. We have said this before. It is true. That is why we say it again. We hang on to that. But the weather. Weather is the theme. It is a fruitful theme. Fruit is one good thing to have. They are good things to have in a family. Some families have them. Some have not. We are sorry for those who don't. Some families are well with feather fellows. Everybody ought to be equal. Equality is justice. We have said this before. But the people wouldn't hear. They will not now. They will listen now. They ought to have listened. This is what we say. The people are a unit. They have not napping. They are about to [illegible]. They are about to get up and "git." They may. They may not. Speaking of May, reminds us of our subject. Subject is weather. It is a tough subject, and we are equal to it. We can do it justice. We shall do it. We do it. At some future time we shall do it. This time is not now. It has not yet come. When it does it will be daylight. We shall go at our subject. For the present we leave it.

[illegible] Items.—By the last trip of the steamer Ajax, we learn that in this city an eminent divine of the Catholic Church. We allude to Rev. F. X. Weninger, S. J., who came upon the invitation of Archbishop Blanchet, for the purpose of giving missions throughout the Archdiocese of this State. Father Weninger has been laboring in Canada and Ireland for the last twenty-one years, in which labor, and the so which has [illegible] he is said to border on the miraculous. It is said he has preached as often as sixty-five times in a month, giving instructions to persons of every age and condition. Van Vleet ordered one of Fletcher's horses to be taken out of the machine, and then struck Fletcher's horses with his whip. Then drew a pistol, and presented it, saying, "You ——— I'll scatter you if you don't give the horse up." Fletcher, unarmed, got behind his horses. Next day Van Vleet was arrested and held to bail in $200 for his appearance at the Circuit Court, and also to keep the peace in the meantime.

Mr. H. Leonard, whose team was drowned in the Willamette Monday, is "out and injured" about $200.

The United Brethren's campmeeting on Fourth Plain, Vancouver, closed last Sunday, 14 miles from Portland, on Sunday, Sept. 5th. It is on Rev. W. I. Cooper's work, and the building cost about $1,200.

Rev. G. Anderson writes from Jacksonville, Sept. 10th: "Our meeting just closed; resulted in quite a number of clear conversions—17 accessions to the Church."

At the general election of officers for the M. E. Church in this city, on Sunday last, the following persons were elected for the ensuing year: Superintendent, J. F. Caples; Lady Superintendent, Mrs. S. V. Hill; Assistant Superintendent, S. Clarke; Secretary, J. C. Rounds; Treasurer, W. W. Cornell; Librarian, G. E. Watkins; Assistant, H. C. Clemens.

On Saturday last, says the *California C. Advocate* of September 15th, Rev. Bishop Kingsley sailed on the steamship Japan for China. His duties will render it necessary for him to visit the northern portion of the empire, after which he will visit the mission at Foo Chow; and, if it should be deemed advisable, he will organize a Conference. On Monday Mrs. Bishop Kingsley and daughter, and Rev. Dr. E. Thomas, left Sacramento by railroad for the Atlantic States.

OREGON CITY.—The *Enterprise* furnishes the following items:

Wednesday night two mules owned by Chas. Stewart were stolen from Mr. Wilkinson's pasture. Sheriff Myers followed the trail of the thief toward Foster's and recovered the mules. Thief got away.

The rains have not yet interfered with the progress of work upon the railroad.

The Clackamas paper mill has turned out some paper made from the fibre of cottonwood. In appearance it is something between straw and manilla, though stronger than straw paper.

The Baptist Sunday School has received by donations $100, for the purchase of books to be added to the library.

THE DALLES.—The *Mountaineer* has the following items of news:

Wasco County Fair opened last Wednesday. Large number of people in attendance and everything lovely.

Revival at Methodist Church still going on. Quite a number of accessions to the membership.

Transportation is much wanted to carry the large amount of goods that are daily arriving from below for the merchants in the interior. Number of teams available small. Prices of freighting likely to rise.

News from John Day's valley is to the effect that the last meeting (called) of the anti-military road association, failed to have a quorum.

PERSONAL.—Rev. Father Wilbur arrived last evening from Salem. He has turned over the reservation and all its affairs to his military successor.

Several of the old settlers and prominent business man of Yamhill county, are now in this city, among whom are Dr. Johnson and Mr. Bean of McMinnville.

The *Commercial* says Esqr. E. May and wife took passage by the *Orillamme* for San Francisco. We saw nor heard nothing of him and his name did not appear in the passenger list furnished us from the company's office, after the sailing of the steamer. Some mistake, we guess.

GOODS FOR CHINA.—In view of the contemplated voyage of the *Hattie C. Besse*, to Hong Kong, the Chinese merchants who are the chartering parties, have a number of agents out in various parts of the State purchasing some of the oddest articles of commerce. The *Besse* will have a singular freight: Chinamen (about two hundred), old scrap iron, bones of defunct Celestials, flour and other produce, broken glass, etc., etc. We saw a Chinaman, yesterday, buying of Dick Miller, of the Junk Store, several barrels of broken glass, which, he says, is to used in the manufacture of China porcelain.

RAILROAD BRIDGE.—Gen. Lovejoy, who came down yesterday from Oregon City, says there are a number of men engaged in getting out rock for the piers of the rail road bridge to be built across the Clackamas. There are to be two of these piers, one on each side of the stream, of massive proportions. It is said that notwithstanding the magnitude of the structure, it will be completed in time to lay down the rails this year.

AN IMPOSING BUILDING.—The Odd Fellows' Hall on corner of Alder and First street, has reached an imposing height. The fine appearance of this building excites general comment. The brick walls will be finished in a few days. When completed, it will be one of the most imposing buildings in the city.

AN OLD LAND MARK GONE.—The old Taylor street M. E. Church is to be squared around on Second street and converted into two business houses. Workmen have been for several days engaged in the job. In a few days we shall probably see the old "house of the Lord" placarded "to let."

PARSONAGE.—There is to be built a new parsonage on the lot adjoining the M. E. Church at East Portland. The foundations are already laid. It will be a small building but it is intended to make it snug, convenient and comfortable.

IMPORTANT TO BASE BALL PLAYERS.—The Pioneer club will hold a meeting this evening at Buchtel's Gallery to consider the proposition of inviting the Red Stockings to visit Portland. All base ball players are requested to attend.

RIVER.—The Willamet river presents symptoms of rising. Water is an excellent thing—for purposes of navigation, and just now a little more of it—in the river, is very desirable.

BURNED.—We learn that on Thursday evening, a little child of Mrs P. G. Baker, accidentally fell into the fire and was severely burned.

HIS NAME.—The name of the man who had his leg broken at St. Helens' Hall, on Thurday morning, is John Barron.

TO HEBREW PARENTS—RELIGIOUS INSTRUCTION.—Dr. Eckman has commenced imparting religious instruction to the children of those parents who may be desirous of committing their children under the (almost paternal) care of a man whose truly religious character and simplicity have ever most extraordinarily attuned his mind to that of simple childhood, and exercised a "magnetic" power on the juveniles brought within his influence which unregenerate minds can never acquire. The instructions will, till the new Synagogue will be completed, be given at the Washington Armory Hall, next building to the Portland Library. Till then, they will be given on the Sabbath and Holy days, after the close of the regular morning service.

By order of the President.

P. LEVIN, Secretary.

LADIES, TAKE NOTICE!—MRS. C. LEVY has just received per steamer *Oriflamme*, via Pacific Railroad from New York, the first shipment of STAPLE and FANCY DRY GOODS for the Fall Trade; and as they are direct from first hands she is enabled to offer them at unprecedentedly Low Prices.

Use KANE'S IMPERIAL CONDENSED SOAP. It washes without rubbing. For sale by Allen & Lewis, Corbett & McCleay, E. G. Sneath and all retailers.

FINANCE AND COMMERCE.

WEEKLY REVIEW

PORTLAND Sept 17 1869

Gold is quoted at N w Y rk at 130½@130¾

Five Twenties of 62 122 of 6 120

The local money market is rather tight, though not enough so to seriously trammel the usual trade or impede the progress of improvements Rates of interest are unchanged There is some dust and bullion finding its way into the market from the mines of Idaho and small quantities in the hands of miners from Montana

New York wheat market $1 70@1 75 Flour $6 50@9 50

Liverpool—wheat 11s 2d

Our produce market is very quiet prices same as at last report Very little of the new wheat has come in and for the limited arrivals buyers are offering only 70@75 for good white There is a good demand for bacon hams and lard in tins at the prices quoted Flour is going off dull and weak at quotations

Just at present the vessels in port are ob aining cargoes quite slowly Most of the sail vessels for some time have loaded only in part with produce filling up at the mills, below with lumber

Our trade with Puget Sound continues good The steamers go invariably with good to full cargoes of produce and merchandize The *Gen. S. Wright* after lying up for two or three weeks, meantime making some repairs, has resumed her place in this trade, and will sail this evening with a full freight The *Gussie Telfair* will sail on or about next Tuesday

Portland has been lately rapidly gaining the trade of Puget Sound, which formerly went to San Francisco, and may maintain all she has gained, if the same wise policy by which she obtained it be continued. On this subject we quote portions of a communication written by a merchant of Steilacoom, W. T., and which appeared in the *Western Star* of the 11th inst

"Portland in Oregon, is to Puget Sound what San Francisco has been to the Pacific coast; no sane man will deny, if he reflects on the subject for a moment and in order to show this assertion we will ask the reader to a few facts, be as few words as possible, and thereby demonstrate our theory, without going round by Cutter field a cut off to the end of the route Portland merchants, at the present time, are importing their goods direct from the Eastern markets, in as short a time by rail, and nearly as quick by rail as the merchants of San Francisco, thereby rendering their facilities for selling as cheap, as good or better than those of the San Francisco merchants.

Goods are bought in the Eastern States for currency, at a less price than is asked for them in coin by the California wholesale merchant, which would leave them from twenty five to thirty three per cent. profit on first cost. Now, we will take for example, a retail dealer on Puget Sound, or in any part of Oregon, and it will be seen and very clearly too, that said dealer can get his goods as cheap in every respect, some cheaper at Portland than in San Francisco, and in one-half the time and much less risk. This being the case, why is it not better to patronize home trade (for our interests are identical), rather than to line the pockets of San Francisco merchants—with gold—for have gone into the country trade, while their (?) have been getting rooted all this time."

The interests of Portland and Puget Sound, in a business point, are truly identical, and cannot well be separated, or conflict with one another for some years yet, if ever. And, we will tell you, frankly, to-day that Portland, for at least, must, from necessity, be to us, what San Francisco has been to both, until we can get our goods from eastern market, direct, either by rail or ship. At that time must come by rail, by way of the Columbia river, and seen through Portland, it will not detract, in any respect, from the interests of that great and thriving emporium of trade, which is, and must be, the grand center of business in Oregon

The steamship *Orizimbo* sailed last evening for San Francisco The only vessels in port are the *Adelaide Elwood* and *Charles E. Bent*, both from San Francisco The *Almeda* is loading for that port. The *Sesia* is under charter for Hong Kong. The *Live Yankee* sailed from San Francisco for Portland on the 11th. The *Whistler* from San Francisco, is now at Oementville discharging machinery for Kreyer's new mill. The steamer *Del Norte* will sail for this port to-morrow

A considerable amount of freight is now going up the Columbia, and shipments up the Willamette are quite as large as the boats can engage.

Wheat trade is nearly all lime has been from idle to good during the past week: Owing to the fact that farmers are yet more less engaged in having their late crops, retail trade still languishes. Stocks of all kinds are large.

San Francisco markets—Flour Oregon brands, extra, from old wheat are jobbing at $6 75, shipping, extra, can be had from $4 75@5 00. Wheat—good shipping $1 60, fair to $1 55, choice coast $1 25 good to $1 30, fair milling $1 45; choice to $1 55 Barley—fair shipping quiet. Barley 1 at 90 cts, 92½; choice Brewing 96c. Oats fair to $1 20@1 25. Corn fair to choice $1 32½.

The Portland Union's editorial letter of the 9th, from San Francisco, says:—"Business matters as depicted by the papers, seem to be in a very prosperous condition, and the merchants are busily engaged in disposing of their heavy stocks of goods. We hear nothing complaining from the interior. The Yosemite letter says it is crowded with New York and Chicago dealers, becoming impressed. The Visalia letter says

Business and New York merchants are selling more goods in this State now than those of San Francisco. The cost of transportation of merchandise of goods from New York is less than the difference in the rate of interest on money in that State and this. This is a fact that our people do not seem to comprehend, or they certainly would not continue to place additional burdens on business, by charging interest from their goods. The legal rate of interest in New York is six per cent. per annum More than this cannot be legally charged, while the commercial rate is only nominal. In this State it is ten per cent. per month. If the merchants of New York would only combine to sell their goods for cash, and not credit to-day, pass the first time none of its members will sell goods without cash or notes, will not such a rule give the New York and Chicago merchants complete control of this market? They can sell their goods cheaper than we can buy—the capital is less than ours, and if they take notes they will bear less interest than those exacted by our merchants

WHITE'S NEW MAP

OF

WASHINGTON TERRITORY!

WEST OF THE CASCADES.

OLYMPIA, W T May 24 1869

THE UNDERSIGNED WOULD RESPECTFULLY solicit subscriptions to enable him to publish a MAP OF WASHINGTON TERRITORY West of the Cascades compiled from the United States Surveys and the best and latest authorities The scale is four miles to an inch making the map sixty seven by fifty one inches In addition to the topography of the country through which the railroad will run Indian and Government Reserves the Prairie lands the various things of the principal harbors and many other particulars will be given The Subscription Price is Ten Dollars; Retail Price Twelve Dollars The map will be finished, colored mounted and complete by August It was awarded in March to the establishment of Colton & Co New York for publication

Subscriptions may be forwarded to Joseph Cushman Receiver Land Office Olympia W T Painter Walla Walla A G Cook Vancouver B F McCormick, Portland who will receipt

We call attention to the following names and reports

HAZARD STEVENS

CHAS A WHITE

ENDORSEMENTS.

OLYMPIA W T March 27 1869

C A WHITE Esq—*Dear Sir* Having examined your original map embracing that portion of Washington Territory west of the Cascade Range I desire to add my test money to its value Having been engaged for a number of years in the surveys in the Cape Flattery to the Head of Puget Sound I have examined this portion of your map more critically than others, and I take pleasure in vouching for its general correctness

Such a map will fill a want that has long been felt not only among the residents of this Territory but others who are desirous of obtaining information of this portion of the North West and I trust that you shall soon see it in a form suitable for general distribution

JAS S LAWSON

Asst U S C S

We endorse the annexed opinion of Jas S Lawson Esq and will add that Mr Chas A White is a practical surveyor and has had across to the township maps in the two Land Offices in this Territory as also the Canal Survey charts and we can vouch for his map of Washington Territory, west of the Cascade Range of Mountains as being correct and the only good map of the same territory that has been made
